

2011The Third Pao-Lu Hsu Conference

August 4-5, 2011, Zhejiang University, Hangzhou, P.R.China

Statistical Machine Learning and Cross-media Retrieval

The Pao-Lu Hsu conference has been held biennially since the year of 2007. This conference intends to promote the convergence of Statistics and Computer Science as well as their applications in China.

Researchers and graduate students both inside and outside China who are interested in attending the conference are all welcome. There is no registration fee for all participants. Please see the registration page for details.

Following the success of the previous conferences in Beijing and Xi'an, the Third Pao-Lu Hsu conference will be held by Zhejiang University from August 4 (Thursday) to August 5(Friday) 2011at Hangzhou, P.R.China.

This conference is a joint event of Key Laboratory of Visual Perception (Zhejiang University) and Key Laboratory of Statistics and Information Technology (Peking University), Ministry of Education and Microsoft. It is also sponsored by College of Computer Science, Zhejiang University.

Hangzhou is one of the seven ancient capitals and the key scenic tourism and historical culture city in China, Hangzhou once was applauded as “the most splendid and luxurious city in the world” by Marco Polo, the Italian traveler in the 13th century. The city locates close to China east coast (200km south to Shanghai) with convenient public transport.
